

## **WEEKLY NOTICE: Week Commencing 21 October 2024**

### **Clarification of requirements at Bridge Table**

**Slow Play:** In future the Clock will be used at all sessions with the warning bell set for 2 minutes before it is time to move to the next table. If the bell rings before you have started the last board of the set, the board must not be played but recorded as "Skip" on the tablet.

**Etiquette:** Please remember to always be kind to your partner and to treat the opposition with respect. This includes saving postmortems until after the opposition leave the table and not telling your opposition how they should have bid or played the hand unless they ask for your advice.

"This is a Zero Tolerance session and we ask that you play nice"
